ENERGY DISPUTES & ENVIRONMENTAL CHALLENGES: NAVIGATING A CHANGING LANDSCAPE

10 avril 2025

Institut de Droit comparé Amphithéâtre
28 rue Saint Guillaume 75007 Paris

The energy sector is undergoing a profound transformation, driven by the global shift towards sustainability, geopolitical uncertainties, and evolving regulatory frameworks. As these changes unfold, arbitration is playing a pivotal role in resolving disputes arising from energy transition policies, ESG-related obligations, and investment risks.

Join us for an engaging panel discussion where leading practitioners and industry experts will explore:

> *The new frontiers of energy arbitration, including disputes related to renewables, infrastructure transitions, and regulatory shifts.*
> *The impact of ESG considerations on arbitration, from investor-state disputes to evolving standards in commercial claims.*
> *The role of geopolitical and economic factors in shaping the future of energy dispute resolution.*

This session will provide key insights into the challenges and opportunities facing stakeholders in the energy sector and how arbitration is adapting to this evolving landscape.
