CONFÉRENCE

TALENT RETENTION: THE KEYS TO SUCCESS

05 septembre 2023

INSEAD, Singapore Campus

To inaugurate the launch of its Certificate in Talent Management, Paris-Panthéon-Assas University is thrilled to invite you to its inaugural conference on the theme: "".

According to the Talent Shortage 2022 report by ManpowerGroup, 8 out of 10 Singaporean companies say they have difficulties meeting their talent needs. And the difficulty doesn't end there: according to Michael Page Singapore Talent Trends 2023, once the right talent has been hired, 92% remain open to new opportunities.

What causes this shortage? A critical skills gap, a limited talent pool, a shift in expectations, a digital disruption or a fundamental reset of people's relationship with their jobs in a post-Covid work environment.

The talent shortage is here to stay. What solutions are possible today? If the causes are multiple, so are the possible solutions. Come and discuss the topic with us and our panel of experts at the launch conference of the (MC) Certificate in Talent Management from Assas International.

> Conference Registration
